

Dr. Franklin Douglass' Chart for Allergy Injection Reactions

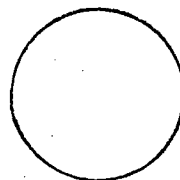

Dollar
39 mm

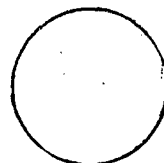

.50 cent
31 mm

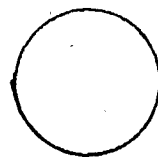

Quarter
25 mm

Nickel
22 mm

Penny
19 mm

Dime
18 mm

Please use the above examples as a reference when reporting reactions to your allergy injections. It is expected for you to have some reaction when receiving your allergy injections anywhere from a dime to a quarter size *reaction is expected. If it is .50 cent or larger* please note size, swelling and if it is warm to the touch.

At each allergy injection please tell the medical assistant the proximate size of your reaction. This will greatly help in administering your therapy.
